# 204 Manual Examination Table

## We asked the experts

What makes Ritter the most purchased brand of exam tables in the industry?

It's our willingness to research, study and listen so we can meet your needs - and the needs of your patients.

You need...

- an exam table with easy access for patients to make them feel secure
- three side drawers for optimal supply management
- modern styling to coordinate with your office
- an updated, ergonomic top design to help patients feel comfortable
- additional weight capacity up to 500 pounds

So, what was our solution? The Ritter 204 Manual Exam Table - the latest in design, comfort and functionality in a manual exam table.

## One-Piece Seamless Drawers

One-piece, seamless drawers have easy-to-clean rounded edges and are seamless to contain spilled fluids, improving infection control.

**Spacious Side Drawers** - Three spacious side drawers provide plenty of storage volume for gowns, drapes and other items, yet are made to help organize your assortment of smaller supplies and bulk supplies. In addition, there are two front drawers for easy access to items during pelvic exams.

**Stylish & Easy to Clean** - The seamless design of the upholstered top is as soft and comfortable as it looks, leaving your patients feeling more relaxed. And, seamless upholstery eliminates areas where dirt and bacteria can accumulate so clean-up is easier, faster and more effective.

**Removable Top System** - The one-piece, upholstered top can be easily removed without tools, allowing for thorough cleaning or a quick upholstery color change.

**Enlarged Footstep** - We increased the size of the footstep over 40 percent above the industry standard. This allows patients to feel more secure and get on the table more confidently.

**Storage Access and Volume** - Our pass-through side drawers provide access to supplies from either side of the table and give you the ability to change your room configuration when you want to.

## Accessories that add convenience

**Assist Handles**  
Provide patients with secure hand-hold to access the exam table or reposition themselves during an exam. Assist Handles can easily be removed for greater patient access without the need of tools.

**Flat Upholstery**  
Provides an excellent working surface for orthopedic, chiropractic or osteopathic uses.

**Adjustable Arm System**  
Offers patients a stable platform for accessing the table and sense of security during positioning. Arms rotate and lock into one of three possible positions and are removable... all without the use of tools.

**Ritter 253 LED Exam Light**  
The flexible, space-saving for any exam room. Available in 3 mounting options.

**PC Work Surface**  
Provides an adjustable height workspace for a tablet PC, portfolio or for exam instruments and supplies. Dimensions: Surface area 16 1/2" W x 12 3/4" D and 10" of height adjustment.

**Urology Drain Pan**  
Ideal during urology procedures for fluid and debris removal.

**Articulating Knee Crutches**  
The unique ball-socket design provides a maximum range of adjustment for optimum knee and leg support.

**Standard Knee Crutches**  
Provide leg support for extended procedures where fatigue is a factor or when the patient lacks sufficient leg strength or control. Swivel to adjust for knee and leg support.

## Everyone is entitled to equal access care.

To really care for people, you must understand the patients you care for – today and tomorrow. With an increasingly aging population, your patients may need assistance accessing the exam table. With an incredible 18-inch low height, the Ritter 222 and 223 Barrier-Free® Power Exam Tables make it easy for you to accommodate all patients regardless of mobility concerns with dignity. Help them help themselves.
