Shipping Confirmation

All Sans Serif text should be the same as the Sans Serif you have used on the website today, and the same with the Serif Fonts.

The lines I have marked in the document can be the same lines as it is today in the template.

If the logo cannot be centered as I have suggested you can have it as it is today (left aligned)

If there are any problems with fixing the fonts as I have suggested let me know and show me an alternative.

Please make the buttons as I have suggested, as they are now they are too big.

If we are to use the other templates I want them of course to have the same layout design as these ones.

Any questions let me know.

/Anna
